

620 ACRE RAIL-SERVED INDUSTRIAL PARK

FOR SALE, LEASE OR BUILD-TO-SUIT | SITES ARE CUSTOMIZABLE

THE ROCKY MOUNTAIN RAIL PARK

The Rocky Mountain Rail Park (RMRP) is a transformative 620-acre land asset poised to become one of the largest private commercial industrial rail facilities in the Denver Metro area. Strategically located in Adams County adjacent to the Colorado Air and Space Port, **RMRP** offers a unique combination of industrial characteristics that are increasingly difficult to find in the region. **RMRP** will feature both unit-train and manifest rail platforms, with infrastructure directly connected to the Union Pacific mainline, ensuring substantial capacity

for rail operations. The development boasts heavy industrial zoning, large land parcels, and proximity to major growth markets, making it an attractive option for various industries. Upon full buildout, **RMRP** will include over 15 miles of private railroad track, designed to provide exceptional service to a wide range of high-capacity industrial uses. Additionally, the site will have comprehensive wet and dry utility infrastructure with building permit-ready sites, making it an ideal location for future development.
