SALINA REGIONAL AIRPORT

NOW UNDER DEVELOPMENT: CLASS A MRO HANGARS & SUPPORT FACILITIES

225,000 SF OF NEW HANGARS AT A NATIONALLY RECOGNIZED TEST & TRAINING HUB

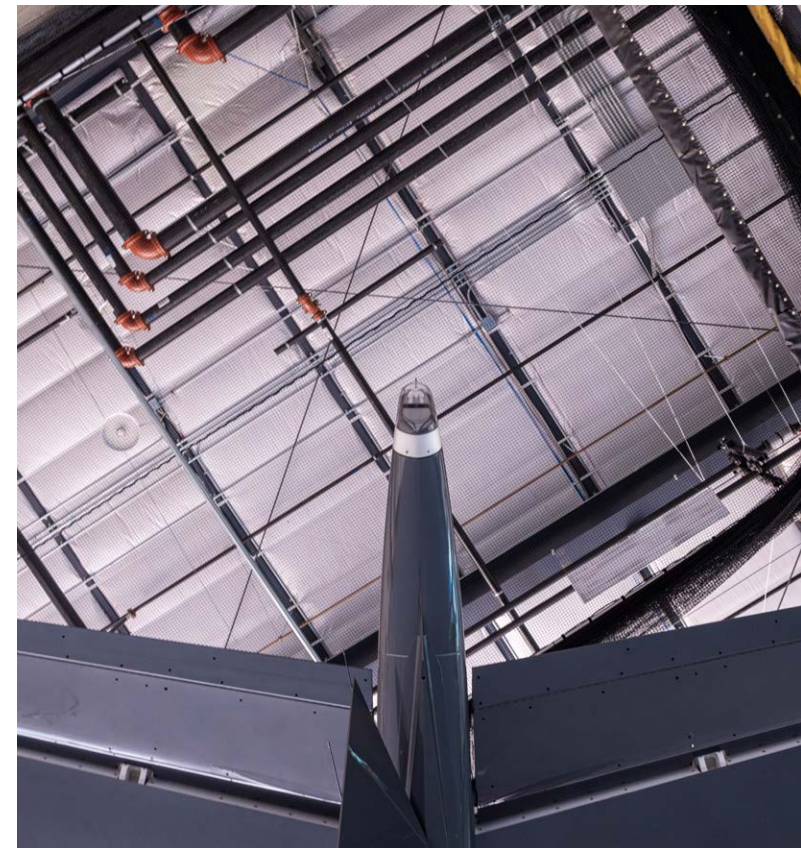

Built for Testing, Training, and High-Throughput MRO Recognized Test & Training Hub

Salina Regional Airport (SLN) has earned a national reputation as a premier test and training aviation hub, uniquely positioned to support modern MRO operations. Currently under development, the airport is delivering 225,000 square feet of new MRO hangars and support facilities, designed for operators requiring runway strength, airfield efficiency, and specialized technical talent.

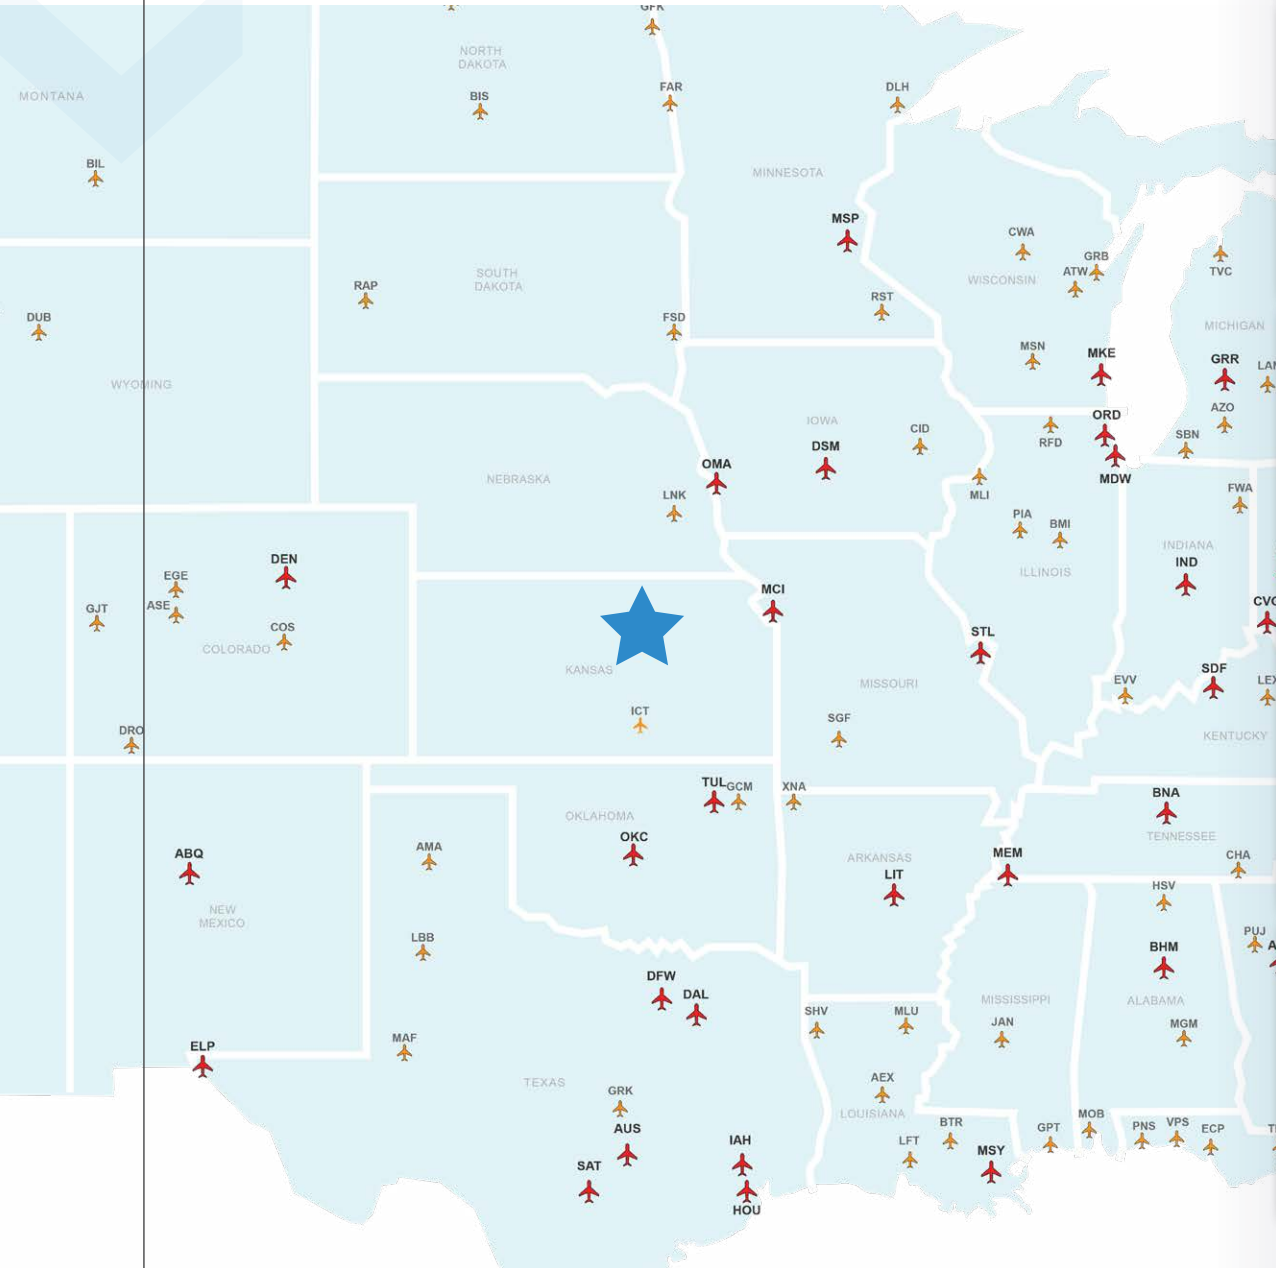

Home to Kansas State University's nationally recognized aviation program, Salina offers a direct pipeline of skilled aviation professionals alongside exceptional airfield capacity. With minimal congestion, flexible development options, and a central U.S. location, SLN provides an ideal environment for MROs supporting training fleets, STCs, avionics upgrades, and R&D-driven operations.

HIGHLIGHTS:

- » 225,000 SF of MRO Hangars & Support Facilities
- » Ideal for Training Fleet Maintenance, STCs, Avionics, and R&D Programs

The Salina Advantage

RUNWAYS BUILT FOR ANYTHING

12,300' primary runway supporting large-frame commercial, cargo, and military aircraft

Minimal delays and ample airfield capacity for high-throughput MRO operations

Ideal for test flights, ferry operations, and complex maintenance schedules

SPECIALIZED AVIATION WORKFORCE

Direct talent pipeline from Kansas State University

Programs supporting A&P mechanics, avionics, UAS, and aviation engineering

Strong apprenticeship and workforce partnership opportunities

PURPOSE-BUILT MRO DEVELOPMENT

225,000 SF of new hangars and support facilities under development

Designed for flexibility across training fleets, specialty maintenance, and advanced aviation services

Build-to-suit opportunities with established utilities and direct airfield access

BUSINESS-FRIENDLY + DEVELOPMENT-READY

Competitive lease rates and flexible long-term agreements

Strong partnership with the City of Salina and Airport Authority

Streamlined development process for new hangar construction

CENTRAL U.S. LOGISTICS ADVANTAGE

Easy access to I-70 and national cargo corridors

Efficient positioning for fleet maintenance scheduling and ferry flights

Reduced operating friction compared to congested coastal airports
